A

eronautics

Airplane Plants

Douglas Aircraft Chicago plant is all wood *624
Ranger Aircraft plant addition laminated timber arches supported by heavy timber trusses. Alfred Zweig *190

Airports

African construction front. W. G. Bowman *454
Airport pavements e518
Airways of tomorrow. Thompson, Smith (A.P.W.A.) 752
Akron to have new hangar.....n502
Aleutian Islands airport. H. W. Richardson 566
Alexandria, Minn. airport improvements (unit prices) 224
Aurora, Purcell and Beaver March airports halted by WPB.....n170
Bases for bombing from Britain. W. G. Bowman *253
Bases for bombing from Britain—explanation. A. E. Hohman.....l 664
Beaufort, S. C. airport testing methods for emulsified asphalt-sand paving. Doran & Wilson.....*750
Cairo, Egypt, airbase dedicated....n*643
Dallas adopts superairport site.....n917
Edmonton, B. C. airport contract awarded n245
El Paso, Tex. airport construction (unit prices) 492
Florida airport (unit prices) 702
Hangar arches erected from scaffold on flatcars *320
Hangar—Blimp base paving..... 405
Hangar—Blimp dock erection at Station R *463
Hangar—Blimp docks of timber erected with traveling scaffolds...*460
Hangar construction—heavy trusses lifted by job-made tackle. J. D. Watson *144
Hangar for blimp of timber erected at high speed.....*826
Hangar for Navy blimps—220-ft. box girders to carry doors.....n*908
Hangar—Navy blimp dock in service before completion n*715
Harlingen, Tex. work authorized....n871
Jacksonville to be surveyed for airport improvements n503
Los Angeles airport planned.....n572
Machine gun tower.....n*873
Midwest airbase modification center includes eight hangars. *632
Minnesota takes steps to aid postwar airport planning 17
North African airbase construction.n238
Oklahoma City plans vast air field n 575
Purchase, N. Y., airport completed..n503
Rockport, Tex., airport improvements (unit prices) 46
St. Louis may have second airport...n503
St. Louis municipal airport needs 14-ft. fill for site.....n296
South Pacific island airfield rushed to completion by Seabees.....n*924
Toronto, Que. third airport proposed n873
Windsor, Ont. international airport proposed n503
Woodbine, N. J., airport paving and drainage (unit prices)..... 639
Appropriations for construction and building equipment n932
Africa—Construction front. W. G. Bowman *454
Air conditioning — Laboratory building provides hot and cold rooms for testing Army equipment *400

Air Raids and Protection

Engineers bridge a mine-blasted crater on Sicily's coast road.....n*716
Germany—bombing of Moehne and Eder dams preceded by months of planning and practice..... 280
Germany—Eder reservoir completely emptied by R.A.F. attack.....n*371
Germany—Moehne and Eder dam bombing recited by squadron leader.....n*860
Great Britain in wartime. W. G. Bowman *172
Aleutian Islands:
Attu airport. H. W. Richardson..... 566
Engineers build Attu section.....n*238
Engineers in the Battle of Attu. H. W. Richardson *942
Aluminum Company marks twenty-five years of research.....n*920
Alvord, John Watson pioneer Chicago engineer dies n*233
American Association of State Highway Officials—Chicago meeting 971
American Association of State Highway Officials—Chicago meeting n*853
correction 929
American Institute of Consulting Engineers—Ask less federal competition....n781
American Institute of Steel Construction—Postwar work discussed at meeting.n644
American Public Health Association—Sanitation problems in foreign fields discussed n581
American Public Works Association:
Notes on the congress held at Chicago. 751
Postwar planning discussed at conference n660
American Road Builders Association—Reports on conditions of highways.....n782
American Society for Testing Materials:
Notes on Pittsburgh meeting..... 159
Pittsburgh meeting n*112
American Society of Civil Engineers:
Arizona Section bargains for its members n929
Atlanta meeting n645
Four men become honorary members..n661
Laying the groundwork for setting up an engineering bargain unit.....e667
Los Angeles meeting.....n225
Postwar planning policy and program formulated n300
Amphibious truck is Army's most versatile vehicle n*313
Anchors:
Resistance capacity of anchors or deadmen. V. A. Eberly.....*832
Strength of anchors in concrete. A. W. Gelpcke .....l 584
Stresses in anchors for wall brackets. W. I. Powell.....*760
correction 877
Anti-freeze solutions *754

Arches

Brick arches for sewage digester and clarifier tank walls. Old Albert.....*260
Laminated timber arches in airplane plant addition supported by heavy timber trusses. Alfred Zweig.....*190
Laminated timber arches used for eight hangars in airbase modifications center *632
Springfield, Vt., reservoir roof of unreinforced arches *479
Timber arches for blimp docks erected from timber scaffolds.....*460
Timber arches for hangar erected from scaffold on flatcars.....*320
Timber arches used for naval training station, Iowa n*116
Two-hinged timber arches support school auditorium roof *410
Associated General Contractors—Chicago meeting .....n 107; n 714
Auditoriums—School auditorium roof supported by two-hinged timber trusses...*410

Awards

Alaska Army engineers awarded Legion of Merit.....n496
Bureau of Reclamation engineers get awards of excellence.....n*855
Bureau of Reclamation engineers get awards of excellence.....n*855
Chanute award to John B. Jackson....*581
E.N.R. wins award in editorial competition n*444
Moles annual award to Somervell and Johnson n*936

B

Beams

Analysis of continuous beams. S. L. Goldberg *734
Beam method of design for eccentrically loaded columns. Odd Albert.....l 186
W. M. Borgwardt..l 249
"Cracked" reinforced-concrete column. J. F. P. Tate.....l 665
Double reinforced concrete beams. C. A. Ellis .....l 584
C. R. Wilder..l 735
Non-absorbent mold material for casting concrete beams 411
Plywood girders carry floor of airplane plant addition. Alfred Zweig.....*190
Plywood plate girders for buildings....*690
Simplified equations for concrete beams. J. F. P. Tate.....*388
correction M. W. Rosenstein.l 516
Bearing pressures for circular plates. M. W. Rosenstein *953

Blasting

Blasting caps and safety..... 471
Seymour Narrows, B. C. submerged rock removed by drilling and blasting.... 27
Bolivia—Letter from Latin America. E. J. Cleary *568

Book Reviews

Basic problems in engineering drawing. W. W. Turner..... 414
Blueprint reading for the shipbuilding trades. A. E. Niederhoff..... 700
Engineering drawing: practice and theory. Carter & Thompson..... 414
Engineering drawing problems. Carter & Thompson 414
Engineers manual of English. Sypherd, Fountain & Brown..... 414
English for engineers. Harbarger, Whitmer & Price..... 414
Foundations, abutments and footings. Hool & Kinne..... 700
Fundamentals of engineering drawing. W. J. Luzadder..... 414
Glossary of shipbuilding and outfitters terms. W. J. Eddington..... 700
Introduction to architectural drawing. W. B. Field..... 414
Out of this nettle, danger. H. W. Dodds 700
Principles of highway construction as applied to airports, flight strips and other landing areas for aircraft..... 834
Shelter trees in war and peace. E. P. Felt 414
Ship outfitter's handbook. E. M. Hansen 700
Ship welding handbook. M. J. Coen... 700
Ship wiring. J. E. Scull..... 700
Theoretical soil mechanics. Karl Terzaghi .....& 44
Transport for war. Edward Hungerford 700
Brazil:
Developments of the Itabira iron ore deposits. E. J. Cleary.....*954
Letter from Latin America. E. J. Cleary.*580
Breakwaters see Shore protection..... 131

Bridge Construction

Brazil—old railroad bridges reinforced to carry increased train loadings....*822
Dixie Highway bridges—one over railroads and one over Salt River.....*469
New York City bridge bearings replaced under traffic *687

* Illustrated; a, abstracts; e, editorials; l, letter; n, news

A

Aeronautics

Airplane Plants

Douglas Aircraft Chicago plant is all wood *624

Ranger Aircraft plant addition laminated timber arches supported by heavy timber trusses. Alfred Zweig *190

Airports

African construction front. W. G. Bowman *454

St. Louis municipal airport needs 14-ft. fill for site n296

South Pacific island airfield rushed to completion by Seabees n*924

Toronto, Que. third airport proposed n873

Windsor, Ont. international airport proposed n503

Woodbine, N. J., airport paving and drainage (unit prices) 639

Appropriations for construction and building equipment n932

Africa—Construction front. W. G. Bowman *454

Air conditioning — Laboratory building provides hot and cold rooms for testing Army equipment *400

Air Raids and Protection

Engineers bridge a mine-blasted crater on Sicily's coast road n*716

Germany—bombing of Moehne and Eder dams preceded by months of planning and practice 280

Germany—Eder reservoir completely emptied by R.A.F. attack n*371

Germany—Moehne and Eder dam bombing recited by squadron leader n*860

Great Britain in wartime. W. G. Bowman *172

Aleutian Islands:

Attu airport. H. W. Richardson 566

Engineers build Attu section n*238

Engineers in the Battle of Attu. H. W. Richardson *942

Aluminum Company marks twenty-five years of research n*920

Alvord, John Watson pioneer Chicago engineer dies n*233

American Association of State Highway Officials—Chicago meeting 971

American Association of State Highway Officials—Chicago meeting n*853

correction 929

American Institute of Consulting Engineers—Ask less federal competition n781

American Institute of Steel Construction —Postwar work discussed at meeting. n644

Associated General Contractors—Chicago meeting ..... n 107; n 714

Auditoriums—School auditorium roof supported by two-hinged timber trusses... *410

Awards

Alaska Army engineers awarded Legion of Merit n496

Bureau of Reclamation engineers get awards of excellence n*855

Bureau of Reclamation engineers get awards of excellence n*855

Chanute award to John B. Jackson *581

E.N.R. wins award in editorial competition n*444

Moles annual award to Somervell and Johnson n*936

Bolivia—Letter from Latin America. E. J. Cleary *568

Book Reviews

Basic problems in engineering drawing. W. W. Turner 414

Blueprint reading for the shipbuilding trades. A. E. Niederhoff 700

Engineering drawing: practice and theory. Carter & Thompson 414

Engineering drawing problems. Carter & Thompson 414

Engineers manual of English. Sypherd, Fountain & Brown 414

English for engineers. Harbarger, Whitmer & Price 414

Foundations, abutments and footings. Hool & Kinne 700

Fundamentals of engineering drawing. W. J. Luzadder 414

Glossary of shipbuilding and outfitters terms. W. J. Eddington 700

Introduction to architectural drawing. W. B. Field 414

Out of this nettle, danger. H. W. Dodds 700

Principles of highway construction as applied to airports, flight strips and other landing areas for aircraft 834

Shelter trees in war and peace. E. P. Felt 414

Ship outfitter's handbook. E. M. Hansen 700

Ship welding handbook. M. J. Coen ... 700

Ship wiring. J. E. Scull 700

Theoretical soil mechanics. Karl Terzaghi 44

Transport for war. Edward Hungerford 700

Brazil:

Developments of the Itabira iron ore deposits. E. J. Cleary *954

Letter from Latin America. E. J. Cleary. *580

Breakwaters see Shore protection 131

Bridge Construction

Brazil—old railroad bridges reinforced to carry increased train loadings *822

Dixie Highway bridges—one over railroads and one over Salt River *469

New York City bridge bearings replaced under traffic *687

Bridge Design

American Institute of Steel Construction suspends bridge design contest for duration n430
Computations for influence lines simplified by semi-graphical method. C. J. Posey *911
Finding partial area of an ellipse. W. E. Cooper *771
Hydrographers' timber footbridge designed for center load of 1,000 lb. *976
Impact tests on a railroad bridge. E. E. R. Tratman *899
Indiana highway bridges designed to carry two lanes of 40-ton trucks *193
Live load reactions to timber stringers. J. E. Lothers (table) *811
Pennsylvania bridge of all-timber construction *390
Suspension bridge stability. Louis Balog ..... l 876
Suspension bridge without stiffening trusses. F. H. Frankland ..... l 517
Tacoma Narrows bridge:
Stiffening trusses. F. P. Witmer ..... l 128, l 378
Suspension bridge design. H. M. Hadley ..... l 317
Testing model for streamlined bridge decks. H. M. Hadley ..... l 664
Unspinning operations. C. E. Andrew. *347

Bridges

Alaska Highway:
Peace River bridge built before the ice "went out". Raymond Archibald. *228
Peace River bridge dedicated n360
Arkansas bridge and highway (unit prices) 852
Arlington, Va.:
Highway bridge (unit prices) 286
Baltimore:
Harbor bridge considered n183
Brazil:
Old railroad bridges reinforced to carry increased train loadings *822
California:
Hydrographers' timber footbridge designed for center load of 1,000 lb. *976
Ties stiffen long concrete piles *825
Cantilever bridge built to support pumps at intake of water supply system. C. S. Glazbrook *824
Chicago:
Ship companies sued for damage to bridges n780
Dixie Highway, Ky.:
Salt River bridges constructed *469
"Dunking" bridge. R. R. Rowe ..... l 734
India:
Calcutta cantilever bridge completed. n781
Indiana highway bridges designed to carry two lanes of 40-ton trucks *193
Iran:
Tigris-Euphrates Rivers bridge, a life span that goes down instead of up n*578
Italy:
Fifth Army builds a detour n*865
Kansas City:
Salvaged steel used in bridge n*361
Laredo, Tex.:
New international bridge proposed ... n315
London, Eng.:
Waterloo bypass bridge is coming down n*435
Los Angeles, Calif.:
Bridge wrecked by runaway trailer repaired in 5 days n*730
Vineland Ave. Bridge underpinning job won by the toss of a coin n872
Minnesota:
Fort Snelling-Mendota Bridge Tests on 17-yr. concrete. W. H. Wheeler .. l 877
Mississippi River bridges n182
Movie producers build bridge used in film n*312
New Mexico highway and bridge (unit prices) 494
New York City:
Brooklyn Bridge rapid transit removal allowed by WPB n729
Macombs Dam bridge bearings replaced under traffic *687
New York City to assess tolls against military vehicles n116
North Carolina:
Relocation of the Southern Railway above the Fontana Reservoir. W. N. Calvert, Jr. *880
Ohio highway bridge built well above flood waters n*125
Ohio railway bridges:
Simultaneous construction of two bridges allows saving n*919
Pennsylvania paving and bridge (unit prices) 776
Pennsylvania Railroad bridge impact tests made. E. E. R. Tratman *899
Pennsylvania's toll bridges to be free .. n246
Pensacola Bay Bridge, Fla.:
Bonds validated n439
Pennsylvania bridge of all-timber construction *390
Pit River, Shasta Dam, Calif.:
Timber truss designed to support girder forms between the piers of dam. *895
Ponton bridge gives access to shipyard n*115
Ponton bridge over Chicago River in 55 minutes n*109
Ponton bridge unit used to ferry equipment n*872
Ponton ferry bridge across the Thames n*304
San Francisco-Oakland Bay bridge:
Airplane hits cables on bridge n444
Seattle, Wash.:
Viaduct completion (unit prices) 168
Sicily:
Engineers bridge a mine-blasted crater n*716
Sparta, Wis. bridge (unit prices) 776
Tacoma Narrows bridge:
Dismantling the bridge towers. C. E. Andrews *602
Stiffening trusses. F. P. Witmer l 128, l 378
Suspension bridge design. H. M. Hadley ..... l 317
Unspinning operations. C. E. Andrews. *347
Tampa Bay, Fla.:
Florida seeks to acquire bridge n376
Washington State bridge improvements (unit prices) 916
West Virginia bridge (unit prices) 852
Wills Creek Dam:
Bridge crossing pool raised n*182
Wisconsin River bridge construction to proceed n654
Wyoming overpass and approaches (unit prices) 46
British Building Mission in United States. n569

Building Accidents

Los Angeles building collapse *793; n871

Building Construction

CCC buildings salvaged for Army camps. *162
Civilian building resumption discussed. n575
Douglas Aircraft Chicago plant is all wood *624
Electric prestressing of reinforcing steel used for small house construction. K. P. Billner *406
Flat-slab concrete roof found economical for warehouses. Jacob Feld (table) .. *637
Great Britain and the postwar city. W. G. Bowman ..... n 123; n 179
Huts and structures for American military installations in Britain. W. G. Bowman *608
Materials now available for 100-octane gas plants n312
Midwest military hospital is constructed in winter weather *693
Midwest war plant completed ahead of fast construction schedule *298
Precast building frames now being used in England 164
WPB establishes service to advise builders n174

Building Design

Igloos—simplified design for muntion igloos *676
Londonderry Navy base huts built in rosette layout. W. G. Bowman *330
Midwest airbase modification center includes hangars with long laminated timber arches *632
Ohio research building has earth-filled concrete block walls *636
Precast columns and timber bents combined for rigid frames in West Coast one-story plant *535
Spacing of split-ring timber connectors. Mehringer, Carr & Dietz *531
Wind pressure on walls. Feld, Campbell ..... l *734
Wind resistance of brick walls. H. A. Sweet *630

Building Laws and Regulations

Fire underwriters issue revised building code n118
Firewall restrictions in building codes. H. A. Sweet *630
Massachusetts building appeals board setup ..... nNov. 18; adv. 128
Massachusetts sets up State Board of Standards and Appeals n447

Buildings

Airplane plant addition laminated timber arches supported by heavy timber trusses. Alfred Zweig *190
Blast furnace foundations of caissons drilled into rock and filled with concrete. G. B. Sowers *767
Chicago:
Douglas Aircraft plant is all wood .. *628
Columbus, Ohio:
Ohio State University laboratory has earth-filled walls *636
Costa Rica:
Railroad station n*572
Eastern Seaboard steam plant requires variety of foundations. O. S. Bray .. *966
Eastern war plant heated by hot water pipes in floor slabs. E. L. Blair *620
Geneva, Utah:
Steel mill construction halted by D.P.C. n872
Houston, Tex.:
Steel plant labor case exonerates contractor n781
Steel plant strike ended n661
Iowa:
Timber arches used for naval training station n*116
Iran:
Building barracks, mess halls, etc. with mud, straw, bally poles and brick. W. G. Bowman *668
Jacksonville, Fla.:
Church roof design of timber. John Graveley *913
Laboratory building provides hot and cold rooms for testing Army equipment *400
Los Angeles:
Dome building collapse n*793; n871
Louisville, Ky.:
Tube Turns' plant uses salvaged metals ..... n
Magnesium war plant constructed with rigid-frame concrete. Plant & Design ..... *
Memphis, Tenn.:
Aluminum plant construction stopped by WPB ..... n
Midwest airbase modification center includes eight hangars ..... *
Midwest military hospital is constructed in winter weather ..... *
Midwest war plant completed ahead of fast construction schedule, *298; correction. Merritt Harrison l
Montreal:
New University of Montreal ..... n*
Natrium, W. Va.:
Large chlorine plant completed ..... n
Navy shop buildings constructed with timber rigid frames and trussed columns. Jennings & Salgo ..... *
Ordnance plant building foundations on compacted fill. W. E. King ..... *
Sao Paulo, Brazil:
Tall concrete building is righted with jacks ..... *
School auditorium roof supported by two-hinged timber trusses ..... *
U. S. training centers constructed on a beach resort site ..... *
Utah:
Blast Furnace No. 1 nears completion ..... n*
West Coast one-story plant combines precast columns and timber bents for rigid frames ..... *
Buses:
Alaskan highway buses now operate to Fairbanks ..... n

C

Caissons:
Blast furnace foundations of open pipe caissons drilled into rock and filled with concrete. G. B. Sowers ..... *
Camouflage:
A.S.C.E. discusses camouflage of industrial plants ..... n
Protective concealment for reservoirs and exposed aqueducts ..... *
Camps, Army, see Housing ..... *

Canals

Intracoastal Canal. Duane Orr l
Madera Canal bids opened ..... n
Madera Canal, Central Valley Project, work is being rushed ..... n
Sault Ste Marie, Mich.:
MacArthur Lock. J. R. Carr ..... *
MacArthur Lock in service ..... n*
Catchbasin design saves steel ..... *

Cement

Box for cement clean-up ..... *
Great Britain adapts truck for bulk cement delivery ..... *
Hot water tanks salvage with cement lining ..... *
Prices—F.T.C. orders cement producers to abandon delivered-price system ..... n
Shipments of portland cement restricted to regional zones ..... n

Channels:
Seymour Narrows, B. C. submerged rock removed by drilling and blasting ..... *
Seymour Narrows, B. C. tides fought in blasting operations ..... n
Chicago Technical Societies Council:
Formation of the council ..... nDec. 16; adv.
Cities:
Colorado and Wisconsin adopt retirement systems ..... n
Seattle industrial market survey made ..... n
Wichita, Kan. municipal administration modernizes personnel system ..... n

Cofferdams

Canvas lining for cofferdam controls water in pervious soil. M. N. Donegian ..... *
Sheet-pile cells as wall of ship construction basins ..... *
Colombia:
Letter from Latin America. E. P. Cleary ..... *
Road construction blasted through rock ..... *

Columns

Beam method of design for eccentrically-loaded columns. W. M. Borgwardt l
"Cracked" reinforced-concrete column. J. F. P. Tate l
Depressed steel column base to carry two 100-ton cranes ..... *
Precast columns and timber bents combined for rigid frames in West Coast one-story plant ..... *
Timber rigid frames and trussed columns for Navy shop buildings. Jennings & Salgo ..... *
Unsymmetrical sections for columns with eccentric loads. Paul Fisher ..... *
Committee for Congested Production Areas ..... n

* Illustrated; a, abstracts; e, editorials; l, letter; n, news

Concrete

Beams—double reinforced concrete beams. C. A. Ellis....1 584
Beams of concrete cast in molds of non-absorbent material 411
Beams—simplified equations for concrete beams. J. F. P. Tate....*388
Bridges—impact tests made on concrete railroad bridge floor. E. E. R. Tratman *899
Cracking in reinforced concrete buildings prevented by control cracks. W. S. Merrill *893
Crushed stone vs. gravel in New York tests n*297
Dunagan method for testing concrete samples *892
Dynamic modulus-of-elasticity determined by testing machine..... *537
Effect of curing compounds on the quality of concrete..... 332
Ehlers' design tables. Hauer, Tschebotarioff 1 379
Electric prestressing of reinforcing steel used for small house construction. K. P. Billner..... *406
Forms:
Deep footings for Westinghouse factory built without forms. H. A. Saurbrey *142
Los Angeles dome building collapse... n*793; n871
Kansas concrete culverts of unreinforced concrete. T. W. Oliver..... *484
Midwest military hospital is constructed in winter weather..... *693
Milwaukee paving work to require no steel 24
Minneapolis proves air-entraining cement concrete to be scale resistant. E. F. Young..... *950
Pipe for delivering concrete has renewable bend feature..... *689
Precast building frames now being used in England 164
Precast columns and timber bents combined for rigid frames in West Coast one-story plant *535
Prestressed concrete pipe for Washington, D. C. water system by a new manufacturing method *885
Prestressed concrete pipe made by new method in Chicago..... *476
Reflectivity of concrete increased by addition of high-calcium lime..... 325
Reinforcing steel for essential work...n659
Rigid-frame concrete industrial plant. Plant & Deitrick..... *334
Sault Ste. Marie, Mich.—MacArthur Lock concreting in below zero weather. J. R. Carr..... *738
Springfield, Vt. reservoir roof of unreinforced arches *479
Strength of anchors in concrete. A. W. Gelpcke 1 584
Tampa, Fla. ship construction basins of thin concrete..... *152
Tensile test method for concrete is improved 631
Tests on 17-year concrete. W. H. Wheeler 1 877
Topeka, Kan. concentric-ring concrete tank *194
Washers count concrete batches..... *771
Winding wire around concrete tank at stresses of 150,000 psi. J. M. Crom..*947

Conduits:

Fiber conduit substituted for critical materials. J. R. Connell..... *165
Removal grillage used over drain at Shasta Dam *699

Construction

British builders complete inspection tour n723
Construction firms going into shipbuilding e250
Limitation Order modified by WPB....n657
Missouri's construction industry forms a citizens postwar construction council n360
Monthly construction business summary, July 1, adv. 51; Aug. 12, adv. 67; Sept. 9, adv. 67; Oct. 7, adv. 67; Nov. 4, adv. 71; Dec. 2, adv. 51
1942 construction activity (table)....n917
1944 construction estimated (table)....n869
1943 construction activity..... n311
No safety nets..... e319
Order L-41 amendment makes contractors' compliance easier..... n723
Postwar construction projects. G. A. Bryant, Louis Kahn, M. C. Tuttle...*616
Price ceiling on construction partially removed n242
Proposed postwar construction projects—U. S. and Canada (table)..... 831
State workmen's fund covers second injury n234
War construction program now nearly complete.....nNov. 18; adv. 132
War Manpower Commission surveys cities for labor situation..... n296
Waste in war construction..... e453
Construction communiques.....118, 238, 369, 440, 505, 653, 731, 865, 925

Construction Equipment

Air compressor overheating overcome by suspending unit in water. C. C. Lynde *283
Box for cement clean-up..... *354
Bucket for concrete..... *913
Bull-clam shovel on tractor used for sanitary fill operations at Army post.*829
Bulldozers manned by American break away to Lae..... n*657
Cement spreader designed to be flown to forward areas n*230
Cherry picker made on the job..... *698
Chest for spare parts..... *976
Concrete testing machine..... *537
Concrete testing method and equipment *892
Contractors' idle equipment sought for non-construction uses n177
Conveyors move aggregates at Shasta Dam 946
Crane frame for heavy loads..... *382
Crane, job-made *698
Crane, shipyard, has high cab..... *833
Crushers—care and maintenance..... *279
Drill, electric, mounted on long pole...*914
Equipment for war use released by pooling plan n303
Excavating equipment needed for strip mining in England..... n657
Floating rig lays Charleston, S. C. submarine water supply main..... *475
Freezing of surplus war property proposed in bill now before Congress..n426
Gantry cranes, revolving, deliver preassembled section of naval ships....*200
Hand ram pulls bolts..... *833
Highway machinery pool plans in three states n441
Hoist, jack-knife, speeds plane loading n*495
Iran—supply route to Russia developed under punishing conditions. W. G. Bowman *520
Jacks used to right tall concrete building in Brazil..... *623
Lubricant container. C. C. Lynde..... *165
Michigan road machinery sold to the counties.....nDec. 16; adv. 134
OPA revises maximum prices for construction machinery n932
Ramp designed for safety. W. F. Lockhardt *165
Rentals for equipment revised by WPB n426
Rented equipment damage settlements limited n649
Rock crushing machinery firms charged with price control conspiracy..... n312
Rope makes muddy steps safe..... *833
Safety nets. F. E. Frazier..... 1 516
Scaffold mounted on gondola cars erects blimp dock at Station R..... *463
Scaffold on flatcars used to erect timber arches for hangar..... *320
Scaffolds of timber erect timber blimp docks *460
Scaffold speeds tank dismantling..... *354
Scissors-kegs supported on carriages move kiln into position. J. M. Houck.*808
Scraper and bulldozer can be airborne.n*311
Seat with rollers aids welders..... *772
Shear plates pinch-hit as wheels..... *353
Shovel, tractor *376
Skid frame of light unit used for fuel tank. C. C. Lynde..... *354
Small items of used equipment exempted from registration..... n239
Surplus new equipment..... e879
Tackle, job-made, lifts heavy trusses. J. D. Watson..... *144
Tamping roller flown to North Africa.n*731
Transit box sling. D. P. Dale..... *43
Traveler, two-derrick, speeds erection of timber hangar for blimp..... *826
Used construction equipment sought by both Army and Navy..... n495
Used construction machinery in very active demand n426
Water heater, Costa Rica..... *166
Wire-braided hose output to be increased n786

Construction Materials

Asphaltic product use now unrestricted.n447
Bituminous material restrictions lifted.n448
Brick arches for sewage digester and clarifier tank walls. Odd Albert...*260
Canada removes ban on asphalt for road use n870
Clay pipe limitation Order..... n792
Controlled Materials Plan now covers all construction n121
Controlled Materials Plan Regulation No. 9A helps maintenance work....n795
Freezing of surplus war property proposed in bill now before Congress...n426
Iran-building barracks, mess halls, etc. with mud, straw, bally poles and brick. W. G. Bowman..... *668
Materials and labor prices..... 48, 288, 418, 556, 704, 836
New York City's Public Works Department establishes permanent exhibit of samples n*262
Non-absorbent mold material for casting concrete beams..... 411
Precast columns and timber bents combined for rigid frames in West Coast one-story plant *535
Prices of building materials affected by OPA n502
Substitute materials used in Douglas Aircraft plant..... *628
Surplus war material problem is considered by Congress..... n443
Venezuela—materials testing. E. V. Barrett *905
WPB provides that controlled materials allotted for construction can be used for no other purpose..... n786

Construction Overseas

African construction front. W. G. Bowman *454
Attu—engineers in the Battle of Attu. H. W. Richardson..... *942
Bases for bombing from Britain. W. G. Bowman *253
Beating a path to Russia's back door. W. G. Bowman..... *520
Brazil—development of Itabira iron ore deposits in Rio Doce Valley. E. J. Cleary *954
Britain to Basra and beyond. W. G. Bowman *498
Derry Navy base in North Ireland. W. G. Bowman *330
El Salvador sewage treatment plant built of local materials. A. N. Carter.*528
Engineer troop training in England. W. G. Bowman *394
European Theatre-of-Operations Army Engineers. W. G. Bowman..... *428
Great Britain in wartime. W. G. Bowman *172
Great Britain—military huts and structures at American installation. W. G. Bowman *608
Inter-American Highway construction. A. N. Carter, pt. 1, *209; pt. 2, *269; pt. 3 ..... *339
Iran—building barracks, mess halls, etc., with mud, straw, bally poles and brick. W. G. Bowman..... *668
London sees the postwar city. W. G. Bowman 123
Training Army Engineers for general construction abroad. V. T. Boughton (Engineering News Record Report).. *29

Contractors

Pennsylvania court holds contractor to literal reading of agreement. S. I. Sacks 761
Wage Board to include contractor and "public" n565
WPB holds that contractor is free to hire anyone he chooses to install machinery in new plant..... n310
Western company sues for loss on sand contract n307

Contracts

Ambiguous words in specifications. R. T. Retz *902
ENR engineering construction contracts.....7, 120, 127, 178, 185, 240, 247, 308, 316, 370, 377, 441, 449, 507, 515, 576, 583, 655, 663, 726, 733, 789, 798, 867, 875, 938
Joint Price Adjustment Board to make interpretations under renegotiation statute n649
Termination of construction contracts covered by War Department regulation n373
War Department's new Board of Contract Appeals. J. W. Gaskins..... 28
War Labor Board can exercise war power over private contracts.....n502
West Coast war contracts endangered by manpower lack..... n576

Culverts

Airfield storm sewer built of unreinforced concrete *282
Kansas concrete culverts designed with no steel. T. W. Oliver..... *484
Pipe culvert headwall..... *283

D

Dams

Anderson Ranch Dam, Idaho:
Work to be resumed..... n649
Arkansas wants more flood control dams built n784
Bonneville Dam:
Completed and activated Dec. 14....n870
Boulder Dam:
Power produced n242
Spillway tunnel break caused by erosion. K. B. Keener.....*762; e737
Columbia River program for the futuren796
Concrete dam deterioration discussed at A.S.C.E. meeting n226
Denison Dam:
Dam to be closed Nov. 1..... n446
Power production soon to start..... n920
Southwestern Power Administration to sell power n563
Transmission line authorized..... n796
Douglas Dam:
Construction of the dam by the Tennessee Valley Authority..... *134
Fontana Dam:
Concreting half completed..... n*777
Fort Gibson Dam:
Bids to be called for..... n314
Construction plans made..... n511
Fort Loudoun Dam:
Reservoir begins to form..... n*295
Franklin Falls Dam:
Put into service..... n659
Friant Dam:
Roadway on top..... n*1
Valves borrowed from Boulder Dam.n*513
Germany:
Eder reservoir completely emptied by R.A.F. attack n*371
Moehne and Eder dams—bombing preceded by months of planning and practice 280
Moehne and Eder dam bombing recited by squadron leader..... n*860

* Illustrated · a, abstracts; e, editorials; l, letter; n, news

Grand River Dam:
Southwestern Power Administration to sell power....n563
High Point, N. C.:
Land contracted for dam....n933
Kentucky Dam:
Concreting in final cofferdam....n*645
Generator installation authorized...n796
Spillway in construction....n*243
Missouri River dams opposed by Iowa soil conservation committee....n797
New England flood dams have proved their value n856
Norfork Dam:
Southwestern Power Administration to sell power n563
Restrictions eased on some irrigation work n170
Rubio Debris Dam:
Dam and diversion channel (unit prices) 286
San Pablo Dam:
Spillway design modified to cure pulsating discharge. J. W. Trahern.. *25
Shasta Dam:
Belt conveyor transports aggregates. 946
Diversion tunnel is in full use....n175
Highway around reservoir....n*646
Intake structure of Pit River tunnel —timber truss supports girder forms *895
Power contract signed by Pacific Gas & Electric and the government....n509
Removal grillage used over drain....*699
River diversion. D. C. May....*397
Transmission line ownership not decided n310
Sinker Creek Dam Idaho:
Earth dam fails....n109
Stream debris problems discussed at A.S.C.E. meeting n226
Sweetwater River, Calif. dam and dike (unit prices) 554
Uruguay:
Black River Dam for hydro project.. 904
Detroit development on a large scale proposed for postwar....n*497
Dikes:
Little Miami River, Cincinnati, erosion halted by permeable dikes built of wire fencing *674
Doors:
Erecting box girders of 220-ft. span to carry doors of Navy blimp docks....*908
Draftsmen needed by federal government.n446

Drainage

Brazilian marsh reclamation by drainage. E. J. Cleary.... 580
Heavy-duty clay tile drains. V. O. McClurg *263
Leadville, Col. mining district to be drained by tunnel....n662; n871
Steep Rock Lake drainage—Finlayson Lake water now diverted to Long Lake n241
Dredges and dredging:
Galveston dredge sunk in hurricane..n310
Drydocks:
Drydock with wheels for invasion craft n*303

E

Earth fill:
Earth-moving practice on a Brazilian railroad job n*563
Ordnance plant building foundations on compacted fill. W. E. King...*403; e380
Earth load on trucks determined by formula. N. B. Mitchell....*699
Ecuador:
Railway extension through the Andes Mountains 907
Eire:
Derry Navy base in North Ireland. W. G. Bowamn *330
Electric railways:
Brooklyn Bridge, N.Y.C. rapid transit removal allowed by WPB....n729
Electrical applications:
Prestressed reinforcing of concrete with electric heating for small house construction. K. P. Billner....*406
Erecting box girders of 220-ft. span to
Electrical generator:
Skid frame of light unit used for fuel tank. C. C. Lynde....*354

Electrical Transmission

Shasta Dam transmission line ownership not decided....n310
Shasta transmission line to be built by U. S. Bureau....n230
Ellipse area quickly found. W. E. Cooper *771

Engineering News Record

Construction projects in this country and overseas. John Abbink.... 132
Editors on foreign assignments....*133
National editorial award won by magazine n*444

Engineering News Record Report

Training Army Engineers for general construction abroad. V. T. Boughton. *29

Engineers

Ambiguous words in specifications. R. T. Retz *902
Arizona section A.S.C.E. bargains for its members n929
Canada gives money aid to engineering students n227
Civil engineering listed as critical occupation n306
Civilian engineers cut in Southwest....n427
Consulting fees for architects and engineers n122
Engineering examiners to expand activities n659
Engineers continued on the critical list n564
Engineers in the Battle of Attu. H. W. Richardson *942
Farming-out city work, e131; Rubenstein, Sklar ....l 248
First examinations given to engineers-in-training n448
Good-neighbor policy. Alberto Belaunde G. ....l 129
Kilgore bill will affect engineers. R. B. B. Moorman....l 317
Licensing:
District of Columbia sets up new classifications n870
Illinois engineering act to be tested.n582
New York City—court action would stop employment of outside engineers for postwar projects....n124
New York Court upholds city in hiring consultants n662
Postwar scarcity of young civil engineers predicted n792
Route to recognition....e453
Shortage of qualified engineers reported by National Roster of Scientific & Specialized Personnel n2
To be an engineer. Nold, Woolrich...l 317
Training Army Engineers for general construction abroad. V. T. Boughton (Engineering News Record Report).. *29
The War as seen from an engineer's viewpoint e519
War Manpower Commission modified use of scientific roster....n778
War-training programs take spotlight at Engineering Educators meeting... 41
Engineers' Council for Professional Development:
New York meeting....n644
Engines:
Engine test cells designed for sound reduction—correction. T. S. Rogers.l 186
Erosion:
Boulder Dam spillway tunnel caused by erosion. K. B. Keener....*762; e737
Little Miami River, Cincinnati, erosion halted by permeable dikes built of wire fencing *674
Everham, Arthur C. Kansas City Public Works director, dies....n*184
Eyebars:
Standards for welded plate eyebars. Jonathan Jones (table)....*546

F

Federal Works Agency

Administrator and his regional aides..n*107
Federation of Sewage Works Associations:
Chicago meeting n643
Ferries:
Equipment ferried on floating bridge unit n*872
Flame straightening. LaMotte Grover.. *21
Floating water tank five miles, Seattle, Wash. n*730

Floods and Flood Protection

Arkansas lands damaged by floods restored by the Army....n303
Arkansas wants more flood control dams built n784
French Broad River, N. C. flood control plan n730
Hartford, Conn. box sewer being built in deep trench for flood control....*888
Mississippi River flood control appropriation n932
Mississippi Valley Association for wide flood control ....Nov. 4; adv. 127
Missouri River flood control system proposed n447
New England flood dams have proved their value n856
T. K. Thomson's scheme for controlling floods in lower Mississippi....e250
Westchester County, N. Y. acts to control floods n237

Foundations

Blast furnace foundations of open pipe caissons drilled into rock and filled with concrete. G. B. Sowers....*767
Canvas lining for cofferdam controls water in pervious soil. M. N. Donegian *756
Eastern Seaboard steam plant requires variety of foundations. O. S. Bray..*966
Ordnance plant building foundations on compacted fill. W. E. King...*403; e380
Side hill foundation problems....*353
Westinghouse factory footings built without forms. H. A. Saurbrey....*142
Furman, Franklin D. ex Stevens Institute dean, dies....n781

G

Garbage and Refuse Disposal

Land fill method of refuse disposal used at U. S. Army posts....
Madison, Wis. upheld by courts in refusal to handle industrial wastes....
Norfolk, Va. gets federal aid for garbage incinerator ....
Gasoline:
Contractors not affected by declining oil supply ....
Gasoline station—canvas lining for cofferdam controls water in pervious soil. M. N. Donegian....
Gates:
Shasta Dam river diversion. D. G. May ....
Glass:
Spun glass hazard. R. L. Bowers....

Grade Crossings

Florida eliminates another grade crossing ....
Newark, N. J. grade separation (unit prices) ....
Texas ruling on road crossings....
Wyoming overpass and approaches (unit prices) ....
Grain silos in England under construction ....
Great Britain:
Bases for bombing from Britain. W. G. Bowman, *253; explanation, A. E. Hohman ....
Engineer troop training in England. W. G. Bowman....
European Theatre-of-Operations Army Engineers. W. G. Bowman....
Great Britain in wartime. W. G. Bowman ....
Huts and structures for American military installations in Britain. W. G. Bowman ....
London sees the postwar city. W. G. Bowman ....
Great Lakes:
Ontario begins diversion of water to Great Lakes ....

H

Heating war plant by hot water circulation through piping in floor slabs. E. L. Blair ....

Highway Administration

California highway commission appointed ....
Connecticut salary budget cut....
Indiana employee lack eased by students ....
Kentucky—J. S. Watkins, new head.
Rural Local Roads Administration agency proposed in Congress....
Texas to exchange highway engineers with Mexico ....
Wisconsin highway chief appointed...
Wyoming state highway superintendent appointed ....

Highway Construction

Alaska Highway:
Peace River Bridge builders win hard race with ice. Raymond Archibald.
British road design. C. W. Cooper....
Cincinnati expressway soon to be completed ....
Concrete—crushed stone vs. gravel in New York tests....
Inter-American highway. Fred Lavis.
Building the highway. A. N. Carter, pt. 1, history, surveys, access and housing, *209; pt. 2, construction in the Four Northern Republics, *269; pt. 3, construction in Costa Rica and Panama, *339; correction. O. J. Ellerson....
Diary. A. N. Carter, pt. 4, *5; pt. 5..
Engineers stop work on highway...
Guatemala to finish section....
Iran—supply route to Russia developed under punishing conditions. W. G. Bowman ....
Linseed oil stops scaling of concrete pavement ....
Pittsburgh's Duquesne Way is soon to be completed ....
Pittsburgh Expressway:
Work continues ....

Highway Economics

Postwar highway appropriations asked.
Postwar highway funds provided in new law ....
Texas reports more cargo, less revenue on highways ....

Highway Maintenance

A.R.B.A. stresses value of road repair now ....
Liquid asphalt injected under pressure below concrete highway ends "pumping action" at joints....
Maintenance problems. G. D. Kennedy (A.P.W.A.) ....

Weirs
History of Sutro weirs. C. H. Capen .....
Inverted-notch weir with flow proportional to head. E. C. Smith.....*
Edward Soneck .....
New type gaging station for small streams. J. R. Villemonte.....*
Submergence effect on sharp-crested weirs. J. C. Stevens .....*
Sutro weirs. Langdon Pearse .....

Welding
All welded ships produced with preassembled sections .....*
Analysis of stresses in welded structures as seen in shipyards.....409, e
Manual welding technique developed for thick steel plates .....*
Ring girder support takes load on tank .....*
Standards for welded plate eyebars. Jonathan Jones (table) .....*
Welded penstock failures. A. T. Roberts .....*
Woman welding champion.....n*
Wellpoints:
Tampa, Fla. excavation for ship construction basins protected by wellpoints excavation .....*
Wells
California precast concrete wells for irrigation service .....*
Weston, Robert Spurr, sanitary engineer, dies .....

Wharves and Docks
Blimp dock erection at Station R....*
Blimp dock of timber arches erected from scaffold on flatcars.....*
Timber blimp docks erected with traveling timber scaffolds.....*
Wind storms:
Wind storm observation. R. R. Ryan.
Wind tunnel in California to develop velocities of 740 m.p.h.....
Wire rope:
Paying proper attention to clips will lengthen life of wire rope. F. L. Spangler .....*
Wisconsin Society of Professional Engineers Proposed new society .....

Wood
Combustibility of wood reduced by treatment .....
Laminated timber arches in airplane plant addition supported by heavy timber trusses. Alfred Zweig.....*
New word needed for description of single-piece wood members. Hampton, Kornay, Engstrom.....
New work needed in wood construction..e
Rapidly changing trends in forest products uses .....

Work Projects Administration
Goes out of business and turns in $130,000,000 .....n
In defense of WPA. H. A. Kelly.....
H. P. Boardman .....
WPA versus ENR. J. P. J. Williams.
Wrecking.
Tacoma Narrows bridge towers dismantling. C. E. Andrews .....*

X

X-rays:
Lead available for x-ray rooms. R. L. Ziegfeld .....

* Illustrated; a, abstracts; e, editorials; l, letter; n, news

AUTHOR INDEX

Abbink, John. Taxicabs in the Yukon?.... 132
Adams, Comfort A. Tribute to L. S. Moisseiff 1 451
Albert, Odd. Brick arches for tank walls *260
Priority on design methods.....1 186
Ammann, O. H. Tribute to L. S. Moisseiff 1 450
Andrews, Chas. E. Dismantling Tacoma Narrows bridge towers.....*602
Observations of a bridge cable unspinner *347
Tribute to L. S. Moisseiff.....1 451
Archibald, Raymond. Peace River bridge builders win hard race.....*228
Ashman, G. W. & F. C. Schmuts. How zinc saves steel from rusting.....*682
Ayres, Louis E. Booster station built in record time *472

Baise, W. Vance. What engineers say..1 379
Balog, Louis. Suspension bridge stability 1 876
Barrett, Eugene V. Materials testing in Venesuela *905
Belaunde, Alberto G. Good-neighbor policy 1 129
Billner, K. P. Electric prestressing of reinforcing steel used for small house construction *406
Blair, Ernest L. Radiant heating for a war building *620
Boardman, H. P. In defense of WPA..1 186
Borgwardt, W. M. Beam method of design 1 249
Boughton, V. T. Training Army Engineers for general construction abroad *29
Bowers, Robert L. Spun glass hazard..1 939
Bowman, Waldo G. African construction front *454
Army engineers in the European Theatre-of-Operations *428
Bases for bombing from Britain.....*253
Beating a path to Russia's back door.*520
Britain to Basra and beyond.....*498
British postwar building problems.... 179
Derry Navy base in North Ireland....*330
Engineer troop training in England..*394
Great Britain in wartime.....*172
London sees the postwar city..... 123
Military huts and structures at American installations in Britain.....*608
Mud, straw, baily poles and brick..*668
Bray, Oscar S. Power plant requires variety of foundations *966
Bryant, George A. Construction after the war *616

Calvert, W. N. Jr. Relocation of the Southern Railway above the Fontana Reservoir *880
Campbell, P. F. Wind pressure on walls 1 735
Capen, Charles H. History of Sutro weirs 1 585
Carmichael, Troy. Year 'round construction 1 799
Carr, J. Roland. MacArthur Lock at the Soo *738
Carr, J. H., F. J. Mehringer & A. G. H. Dietz. Spacing of split-ring timber connectors *531
Carter, A. N. Building the Inter-American Highway pt. 1, *209; pt. 2, *269; pt. 3, ...*339
Hydro-plant doubles Costa Rican power *466
Inter-American Highway diary, Pt. 4 *5; Pt. 5, ...*113
Treatment plant built of local materials *528
Cleary, Edward J. Letter from Latin America, *501, *512, *565, *580, *658, *718, *780, *794, *922
Way down the Rio Doce Valley.....*954
Sewage disposal in South America....*551
Connell, James R. Fiber conduit substituted for critical materials.....*165
Cooper, William E. Finding partial area of an ellipse *771
Cooper, C. Winston. British road design 1 516
Crain, A. M. Chicago subway personnel 1 799
Crom, J. M. High stressed wire in concrete tanks *947
Cruttwell, C. H. Barge places 90-ton breakwater blocks *149

Dale, Drake P. Easily constructed transit box sling *43
Day, Willard F. Wartime congestion areas 751
Deitrick, S. J. & A. F. Plant. Rigid-frame concrete industrial plant.....*334
